PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size,* heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes,* or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume I will be ornamented with an excellent Portrait of Sir Walter Scott.

DAILY PITTSBURGH GAZETTE.

MONDAY AFTERNOON, AUGUST 26, 1833.

Improvement of the Monongahela & the Chesapeake and Ohio Canal.—This day, at 4 o'clock P. M., the meeting is to be held at the Court House, upon the subject of these two improvemnts. They are both matters of the first importance to our city, and we earnestly hope that our citizens will, by their attendance, manifest the interest they take in them.

☞We learn that Horton Howard, a compounder of Thomsonian medicines, his wife, his daughter, (a very accomplished young lady,) and his two grand children died, of Cholera, at Columbus, Ohio, within a few days of each other, and that his son in law was lying at the point of death.

Foreign News.—The recent intelligence from Europe is quite interesting.—The account of the capture of Don Miguel's Fleet, which we published a few days ago, but which was not so attested as to entitle it to full credit, is now placed beyond all doubt. We consider this affair as decisive of the fate of the controversy in Portugal, and will not be surprised to find that, within a very short time after the intelligence is received at Lisbon, Don Miguel deemed it most prudent to seek his safety in Spain.—July has been noted as the "month of Revolutions," and we think it probable that events in Portugal will give it an additional claim to that title.

The cause of Don Pedro, or rather Donna Maria, had assumed a decidedly favorable aspect from the time of the landing of the expedition at Lagos. Much enthusiasm, in favor of her cause, seems to have been displayed in the ancient kingdom of Algarve, the first time, we believe, since the landing at Oporto, at which much excitement was evinced. This naval victory, and total destruction of the fleet of Don Miguel, will come, powerfully, in aid of any previous favorable feeling in Portugal.—In addition to this moral influence, the physical advantages afforded, by an easy and safe communication along the whole sea board of that kingdom, will be very great.

The Ensuing Election.—We had, for some time, entertained the expectation that our annual election would, this year, take place without much excitement.—This was very desirable—we were anxious to witness the result of an election, conducted coolly and dispassionately, and without those angry discussions which have usually occurred here. Some of the late numbers of the Mercury seem, however, likely to dissipate entirely these expectations.

Vehement attacks are made upon our late representatives, on account of their conduct in advocating the bill authorizing the Commissioners to sell the property now held by the county, and to purchase a suitable spot for the erection of a Court House and Jail.

We know not what may be the opinions of the opposing candidates upon this subject. But, believing, as we do, that the editor of the Mercury no more thinks for himself, than does Maelzel's automaton chess player, we are inclined to think that these candidates will, if elected, endeavor to procure a repeal of this law. If such is their determination, *the people should know it.* If they are determined to continue the Court House in the Diamond, to the annoyance of the market people, by crowding them into the present contracted market house, and to the continual interruption of business in Court, by the noise of stages, carriages, drays, and wagons passing the door—the people should know it. If they are determined that the present jail, which has so often been declared a nusance, shall be sustained—the people should know it. If they are determined our city and county, instead of advancing in improvement, shall be arrested in their progress—the people should know it.—If such are the views of the persons on the mixed ticket, we would like well to know it. If these persons will advocate a repeal of the law of the last session, then the question—will you, or will you not, have a new, and convenient, and suitable Court House and Jail, is distinctly presented for consideration, and we are much mistaken if the people of Pittsburgh do not unite with the yeomanry of the county in favor of these necessary improvements.

We then say to these candidates—Are you in favor of a repeal of the law upon this subject, passed at the last session?

LATE FOREIGN INTELLIGENCE.

From the United States' Gazette.

SEVEN DAYS LATER FROM ENGLAND.

We have, by the arrival at New York of the Europe, from Liverpool, London dates to the 15th of July. From the extracts made by our New York correspondents, we give the following summary.

The most important part of the news is the particulars of the rout, and almost destruction, of the Miguel fleet, by Don Pedro's squadron. This will probably nearly settle the dispute between the brothers.

There is much talk of a new ministry in England, in consequence of the failure of the Local Court Bill. "Mr. Manners Sutton," Speaker of the House of Commons, is spoken of as premier.

A plot against the life of the Emperor of Russia, by certain Poles, has been discovered in St. Petersburgh.

London, (Saturday evening,) July 13th, Half past 7 o'clock.

Accounts from Algiers, of the 24th ultimo, state, that some French Engineers, when engaged in the labors of the harvest, had discovered the bed of the canal constructed by the Romans, for conveying water through the province of Mitidjea, which was capable of being repaired and applied to its original use, at the very small expense of about 25,000 francs. Hence was demonstrated the possibility of cultivating this province; the resources of which, for agricultural produce, are of the most extensive kind.

Reports from Spain of an army of observation being ordered to the Portuguese frontier to watch the proceedings of the constitutional expedition to the Algarves and the Alentejo, and the exertions making in London to fit out steam vessels in aid of Don Miguel, have caused a reaction in Portuguese scrip which is now 2 1-4 to 2 discount.—Spanish bonds are 18 3-4 to 5-8.

The great question absorbing all others in the British capital, was that of the probable fate of the Irish Church Temporalities Bill, in the House of Lords. The struggle was to come up on the 18th. On the 11th, on presentation of some petitions against the Bill, a skirmishing debate took place, during which the Duke of Wellington distinctly avowed the second reading of the Bill would be opposed. The prevailing opinion was, that Earl Grey would be out voted; but he appears to stand firm in the confidence of the King.

The Times, however, declares that the Tories have proceeded so far as to make arrangements for the New Ministry. Neither the Duke of Wellington, nor Sir Robert Peel, according to this journal, are to come into place. The speaker, Charles Manners Sutton, is spoken of for the Premiership. Serious difficulties were apprehended, in the event of the resignation of Ministers, and the King had postponed a levee to await the event.

The Local Courts Bill, one of the Law Reforms proposed by Lord Brougham, had been rejected by the Peers—on which occasion, Lord Hill, the commander in chief, voted against Ministers. The cabinet, it is said, had taken the subject of this refractory vote into consideration, and decided that, on the next occasion on which the commander in chief shall vote against the government, or be neutral when they require his support, either his Lordship must go out of office, or *they will.*—This, with all allowance for Lord Hill's merits as a man and as an officer, the Times says is what ought to have been done long since.

CAPTURE OF DON MIGUEL'S FLEET.

London, July 15, 1833.—Napier (for Captain, or Admiral, or Count, are mere insignificant designations, in comparison with his name) has gained a great and decisive victory over the Miguelite fleet. Seamen, only, can appreciate the merits of this action, in a professional point of view—they, only, can understand the difficulty of the combat—they only can tell what extraordinary skill and courage were necessary to undertake the attack, and accomplish the capture of ships of the line by frigates. But all can understand, and all admire, in a general sense, the gallantry of the enterprise, and all can see that this important victory affords the last and crowning proof of the immediate necessity of a recognition of the rights of the Queen of Portugal. Probably, while we are still writing, Napier has realised his ardent hope of planting the standard of Donna Maria in the grand square of Lisbon.

On board the Birmingham Steamer, Lagos, July 2.

"Towards the close of this day the Villa Flor arrived here from the squadron of Her Most Faithful Majesty, bringing orders from Vice Admiral Napier for the steamers to take in all the coals they could, and proceed to join the squadron off Cape St. Vincient, the enemy's fleet having made their appearance on that day. On the 3d, three steamers, the fourth having been previously despatched by the Vice Admiral on secret service, got under weigh, and having on the same day, joined the squadron, kept company with them till the 5th; the greater part of the time in presence of the enemy, to whom our Admiral repeatedly offered battle, without the challenge being accepted by the rival Admiral. At noon this day, it being quite calm, Admiral Napier gave orders for steamers to tow the frigate alongside the enemy's vessels, for the purpose of engaging them; but the engineers and crews refused to work their vessels within shot of the enemy demanding for this service £2,000, each.

Meantime, at about 2 o'clock P. M. a light breeze sprung up from the S. W. when the enemy ships took their stations; first, the Don John, 74, being commodore's ship; astern of her the Rainha, 80, each of 850 men; astern of her, a large store, mounting 48 and 680 men; next to her the Princessa Real, 56 guns and 940 men; astern of her a large corvette, about a quarter of a mile to leeward of the former vessels; and right between every two of the large vessels was placed a corvette or brig, so as to make their guns play between the larger vessels. Our squadron was making every preparation, and at 20 minutes to 4 o'clock, P. M. the Admiral hoisted the royal standard, &c. and bore down on the enemy, followed by the Don Pedro and Donna Maria, the Portuguese and Count Villa brig, a good way astern, owing to their dull sailing. The Admiral's intention was to board the Rainha on the starboard side, the Don Pedro to run up on her larboard side, to board and carry her. Our vessels carrying a stress of sail soon ran down on the enemy. When about a musket shot off the Rainha, the store ship and the frigate commenced a very heavy fire on the Rainha and Don Pedro, and also the Don John commenced firing her stern guns, and whole broadsides from the corvettes and brigs to leeward. Our brave Admiral took no notice of their firing, but ran close down, poured two well aimed broadsides into the Rainha, and laid the ship alongside and boarded. Admiral Napier being the first to mount, sword in hand, supported by his officers, notwithstanding a brisk firing of musketry and the cutlasses of the enemy, through which he made his way, after struggling for nearly 7 minutes, suspended by the cordage, and having received a blow on the side with an iron bar, when two or three of his officers jumped on board the Rainha, and he followed.

The Don Pedro kept firing into the store ship and Princess Real, and carried away the store ship's fore top mast, leaving her forecastle strewed with wreck. The Donna Maria fired several well aimed broadsides into the Princess Real frigate. At 4, 30, the Don John hoisted sail and made off; the corvettes and brigs followed their Commodore's example. The Rhamba de Portugal, sheered off from the Rainha, to give chase to the Don John, the Don Pedro standing across the Rainha's stern, raking her, and then gave her a broadside on the larboard quarter, when she surrendered, and the Don Pedro made after the Don John. The Donna Maria ran alongside of the Princess Real frigate, and boarded her. She, however, succeeded in getting away with the Captain and part of the crew of the Donna Maria on board of her. She ran a good way to the N. E. followed by the Donna Maria, who, on passing the store ship, fired a broadside into her. The Portuense and Villa Flor engaged the store ship. At 5 P. M., they hoisted the Donna Maria's colors on the Princess Real Frigate. At this time Don John was carrying all possible sail, and the Don Pedro and Admiral's ship in chase, the enemy's corvettes and 2 brigs, crowded all possible sail, and running to the S. S. W. At 6, P. M., the Don shortened sail rounded to, and hauled down Don Miguel's colors. The Don Pedro ran up alongside of her on the starboard side, and secured her. The Admiral fired some shots at the store ship, when they surrendered, and hoisted Donna Maria's colors.

July 6.—"At 1, P. M. we stood towards a vessel supposing her to be the Portuense, but which proved to be the Princess Real. We had hailed her, when they sung out 'Viva Donna Maria Segunda," and the Captain then came on board of us, and gave the vessel up. We then went on with our prize to Lagos Bay; at 5, A. M., we took the store ship in tow, and set on full speed, running N. E. for St. Vincent, all our vessels, and the five prizes, viz:—

Rainha, 80 guns,	850 men.
Don John, 74	850
Princesa Real, 56,	640
Freitas, or store ship, 48	580
Princesa Corvette, 24	320

bearing N. N. E. distance about 12 or 14 miles; and at 3 P. M. the whole squadron cast anchor in Lagos Bay.

"The list of the killed and wounded is not yet made out. Captains Goblet and George, and Lieutenant Woolbridge, killed; about 20 officers wounded, some severely; about 20 men killed, and 60 wounded; the ships very little damaged, except about the rigging and some of the masts. The enemy had several Captains killed, and about 10 other officers, and 120 men, and about 200 wounded.

"Such was the glorious termination of this memorable day, in which, at one single blow, Don Miguel has seen himself deprived of his whole fleet. No words can express the joy which this event diffused at Lagos, where Napier was received with the most enthusiastic acclamations by the whole population, and, like the heroes of old, crowned with laurel by the fair hands of the Lagos ladies. In a few days the gallant Admiral will be again at sea, and Lisbon will open her gates to receive him. The expeditionary army is making progress in the Alemtejo, where, as soon as the news of the capture of the squadron is known, no doubt is entertained of a simultaneous rise in that province; you may, therefore, expect to hear soon that the capital of Portugal has either been occupied by our troops, or declared for Donna Maria. Eternal honor to the gallant Napier and his brave tars."

TURKEY AND EGYPT.

St. Petersburg, July 3.—The latest accounts from Constantinople state that the retreat of the Egyptians continued, and the vanguard was on the other side of Koniah.

Captain Baron Von Lieven and Colonel Hafiz, who went as commissioners to Ibrahim's camp to witness the retreat of the Egyptian army, had been furnished with an open letter from the Grand Vizier to the Turkish civil and military authorities in the provinces through which they were to pass.

Our readers will probably like to read Ibrahim Pacha's letter to the Sultan, in which he thanks him for the investiture of the government of Adana, and declares his submission and devotedness:—

"My sublime, magnanimous, awe inspiring mighty great Sovereign, our benefactor—the benefactor of mankind.

"May God grant to your Sublimity a life without end, and make the august shadow of your Sublimity a protection for all men, and especially for my humble head.

"Your inexhaustible goodness has induced you, most gracious Sovereign, to grant me the government of Adana as mahassilik (in farm.)

"Animated by this new favor of your Sublimity, the duration of my frail existence shall be wholly devoted to praying to God for the prolongation of your life and reign. As my heart is pervaded by a feeling of happiness, I entertain (God is my witness) no wish but to act so as to obtain the gracious approbation of your Sublimity, and to find occasion to devote myself to your service. For the purpose of expressing my gratitude to your Sublimity, and to express my most humble thanks, I venture to lay this humble petition at the foot of the throne of the sublime, magnanimous, awe inspiring, mighty, great Padischah, our august sovereign and benefactor, the benefactor of all men."

This letter is written by Ibrahim Pacha with his own hand, and sealed with his seal.

London, July 12.—Last night Mr. E. L. Bulwer, in a motion for papers relative to the recent conduct of Russia towards the Turks, gave the House an opportunity of following up that manly and honorable train of sentiment by which so many members had distinguished themselves a few nights previously on the subject of the atrocities practised by the same semi barbarous power upon the Polish nation.

RUSSIA.

Despatches from St. Petersburgh, as also the St. Petersburgh Gazette, received in London, on the 14th of July, mention a plot against the life of the Emperor of Russia, on the part of some Polish exiles, who left Paris a short time ago, and bound themselves by an oath to effect his assassination. It was first made public by a journal, which gave an account of the reception of a deputation which waited upon the Emperor, in Finland, to congratulate him on the frustration of the conspiracy. It seems that the Russian authorities did not wish the matter public, but, on this account appearing, deemed it right to allude to it in the Gazette. The sensation created throughout Russia is very great, and all sorts of precautions are employed to protect the Emperor in his various visits to the frontier towns.

The St. Petersburgh Journal, of July 3d, announces advices from Constantinople, of the continued retreat of the Egyptians. Ibrahim Pacha's vanguard was on the other side of Koniah. Captain Baran, Van Lieven, and Colonel Hafiz, who went as commissioners to Ibrahim's camp to witness the retreat of the Egyptian army, had been furnished with an open letter from the Grand Vizier to the Turkish civil and military authorities in the provinces through which they were to pass.

ENGLAND.

West India Affairs.—At an adjourned meeting of West India proprietors at the Thatched House Tavern, the Earl of Harewood in the chair, resolutions were passed, declaring—"That the meeting were anxious to adopt the principle of the resolutions of Mr. Stanley; that they had always been ready to offer to his Majesty's Government their local knowledge and practical experience; that the proposed bill meditated an unnecessary interference with the rights and privileges of the Colonial Legislatures; and that a committee, consisting of the agents of the islands, and other gentlemen, should be appointed to examine into the details of the bill, and report hereafter upon it."

Dublin papers announce the death of Dr. Laffan, Roman Catholic Arch Bishop of Cashel, and brother of Sir Courcy De Laffan, Baronet.

East India Trade.—The resolutions relative to the East India Company's Charter have been agreed to in the House of Lords, after some opposition from Lord Ellenborough and the Duke of Wellington.

The Lord Chancellor's Local Courts Bill, for making justice cheap, and accessible to the poor, was thrown out by the House of Lords on the motion for its second reading. The majority was but 12.

The West India Slavery Bill was to be taken up for its second reading on the 15th, to the morning of which day only our advices extend.

It is not long since this journal apprized the country that the Duke of Wellington had formally and finally taken the command of the opposition Peers, and that the phalanx so directed was prepared for all political extremities with the House of Commons and the nation. That statement was literally true, and before the end of the present week, unless the enemy's counsels shall have undergone some change, the truth of it will be demonstrated by the rejection of a measure on which the whole people of the United Kingdom have staked their hopes, and Lord Grey's administration its existence.

The Church Temporalities Bill is to be thrown out,—thrown out, as is generally anticipated, on the second reading. But if that course be too straight forward for the revolutionists, the bill will be cut to pieces in committee; and thus mutilated, and thus deformed, will be sent down once more to the House of Commons, for that assembly to register the edict of the oligarchs and its own humiliation. Such a game, however, will not be played with success.—*London Times, July 15.*

From the N. Y. Journal of Commerce, August 22.

ONE DAY LATER!

We are indebted to Capt. Pitcher, of the ship Gov. Throop, for a Liverpool paper of July 17th, the only late paper which there was on board.

Liverpool, July 17.—By the last accounts from London, a rumor seems to prevail in the political and money circles, that the peers intend to forego the opposition to the church bill—at present, however, it is impossible to say to what degree of credit it is to be entitled.

The woollen cloth trade at Leeds and the neighborhood continues brisk; some of the merchants find it difficult to execute the orders they have received, at the terms prescribed, on account of the advance in the raw material.

The blanket trade in Dewsbury, Heckmondwike, and the neighborhood continues very brisk; but there is still a complaint of want of profit.

At Rochdale flannel market, last week, but few goods of any kind were offered, and what business was done was at a further advance. The increasing value of wool, and the general advance in wages, with the present demand, must inevitably raise the prices of all sorts of flannel still higher.

AFFAIRS OF PORTUGAL.

London, July 15 (Evening).—We understand, from good authority, that the Duke of Palmella has received full powers from Don Pedro to place himself at the head of a regency at the Algarves, and in that capacity he may be expected to make a formal application to the British and French governments for the recognition of Donna Maria, as Queen, *de facto*, of Portugal. Indeed, some surprise has been caused by his not having done so already.

There is said to be great disinclination on the part of some of the members of our Cabinet to take any step in favor of the Portuguese Constitutionalists on a direct application of Don Pedro, but it is highly probable that the Regency, established in the Algarves, will not make a fruitless application, when it is considered that the only grounds of objection hitherto assigned by our government for the non recognition of the Regency are removed, and that the capture of the Miguelite fleet, by Admiral Napier, has entirely changed the complection of the contest.

We are able to state that the French government have warmly pressed the recognition of Donna Maria, as Queen, *de facto*, of Portugal, upon our cabinet, and have again offered to concur in and support any measures which Earl Grey may be pleased to adopt. We may add, also, that the news which the Portuguese ambassador received yesterday, which was immediately communicated to Lord Palmerston and his colleagues, has already had an effect upon the minds of the individuals of the cabinet most opposed to an intervention in favor of the legitimate Sovereign of Portugal.

Accounts from Madrid state that the landing of the Portuguese Constitutionalists in the Algarves produced great consternation in the Cabinet of Ferdinand.—Troops were hurried off to the frontiers—but when the news of Miguel's fleet being captured, reaches Madrid, it will strike terror into the heart of M. Zea Bermudez and his apostolic colleagues. Ferdinand may now prepare for a revolution with as little delay as is convenient. The Cortes were dissolved on the 4th of July, the day before the capture of Don Miguel's squadron.

PORTUGAL.

The little province of Algarve—which formerly constituted a part of the Moorish kingdom of that name, extended nearly over the whole of the southern coast of Spain, and included a part of Africa—though still denominated a kingdom, is very much curtailed. It is separated on the north from Alentejo by the mountains of Moncheque and Caldiero, and from Spain by the Guadiana; the southern part is bounded by the Atlantic Ocean. Its situation is peculiarly favorable for commerce, possessing a greater numbers of good harbors than any other equal portion of the country. Its greatest length is 76 miles from east to west, and from 17 to 30 broad, from north to south. It contains 4 cities, twelve towns, sixty villages, and about 94,000 inhabitants.

We incline to the opinion that treachery contributed to the victory of the squadron of Don Pedro over that of Don Miguel. "The Miguelite Commodore struck his colors without firing a shot—the officers and ship's company refusing to fight." This quotation is from the official account.—*National Gazette.*

Female Sailor.—An English paper mentions the death, by a fall on board a vessel at Gravesend, of a woman who had sailed for the last year or two as a seaman, dressed in male attire. She was groggy; and in attempting to come down by the top gallant halyards, her hands fired, which obliged her to let go her hold, and she fell on the deck, about a height of twenty feet, and was killed on the spot.

Chesapeake and Delaware Canal.—From the first of February last, to the 16th inst., there have passed through this Canal, from the Delaware, 259 regular Packets, laden with merchandise. During the same period, 430 Packets have passed from the Chesapeake to the Delaware, laden with merchandise of various descriptions.

Mr. Buchanan, Minister to Russia, has resigned, and obtained leave from the President to return home. The climate of St. Petersburgh has become exceedingly detrimental to the health of American Ministers—*since the reign of reform commenced.—Poulson.*

New Work on Constitutional Law.—Messrs. Collins & Hannay, of New York, have now in the press, and will speedily publish, in a duodecimo volume of about 200 pages, "Outlines of the Constitutional Jurisprudence of the United States, designed as a Text Book for Lectures, as a Class Book for Academies and Common Schools, and as a Manual for popular use. By William A. Duer, LL. D., President of Columbia College."

It has been remarked that the rise in the market price of Cotton, caused by the increased demand for the article in Europe, will effectually neutralize Nullification.

Advantages of low prices.—A gentleman in one of the steam boasts asked the stewart, when he came round to collect the passage money, (1s. each for the best cabin,) if there was no danger of being blown up. The stewart promptly replied, "No Sir, not the least; we cannot afford to blow people up at these low prices."—*Scotsman.*

Sperm. Oil, for summer use, has been contracted for by the Boston merchants, at 90 cents per gallon, and winter oil, at one dollar. The price of oil is constantly on the increase.

Recharter of the U. S. Bank.—The National Intelligencer, of Thursday, expresses the opinion that two thirds of the Senate are now in favor of the recharter of the United States' Bank. The opinion of the Intelligencer must be based on a belief that Mr. Calhoun and his friends are favorable.

The vote of the Senate, on the Veto Message, was, ayes, 22—noes, 19. Among the noes were General Hayne and all the Nullifiers, except Mr. Poindexter, of Mississippi.

Those members of the next Senate, who are known to be friendly to the Bank, are, Mr. Sprague of Maine, Mr. Bell of New Hampshire, Messrs. Swift and Prentiss of Vermont, Webster and Silsbee of Massachusetts, Robbins and Knight of Rhode Island, Smith and Tomlinson of Connecticut, Southard and Frelinghuysen of New Jersey, Wilkins of Pennsylvania, Clayton and Naudain of Delaware, Kent and Chambers of Maryland, Clay of Kentucky, Ewing of Ohio, Tipton and Hendricks of Indiana, Robinson of Illinois, Waggaman of Louisiana, and Poindexter of Mississippi—24.

The Senators to be chosen by Louisiana and Pennsylvania may be set down as friendly, making the whole number of known friends to be 26. In order to insure the passage of the bill by a vote of two thirds, there must be an accession of strength from some quarter. It is more likely to come from Mr. Calhoun and his supporters than from any other.—*Bost. Dai. Atlas.*

The American Eagle.—We noticed, several weeks since, the capture, by our news collectors, of an Eagle, which lit on the mainboom of the T. H. Smith, while on a cruise off the Hook. The bird has been caged, and is in the care of Madame Parmentier, at the horticultural garden, at Brooklyn, who kindly consented to take charge of him till the return of Mr. Audubon, the naturalist, now on an excursion to Labrador, whose intention was to send him to London. Since he has been at Mrs. Parmentiers' he was visited by a lady, who immediately recognized him as the same which she saw on board the ship South America, Capt. Marshall, on the day of her sailing hence for Liverpool, which was on the 16th of June last. The Eagle was captured on the 19th of the same month, and so much exhausted, as not to be able to offer opposition to his captors. We shall be curious to know at what time he took his flight from the ship, and how long he was on the wing. The bird is young, and one of the finest specimens of ornithology, and so peculiarly marked that there seems to be no doubt as to his identity. This rare bird is a prisoner under very singular circumstances, if it prove true, that he made his escape from the South America.—*N. Y. Gaz.*

During the year 1834, there will be but three eclipses vissible, two of the moon, and one of the sun. The last, in some parts of the United States, will be total. The following is a summary of its phases:—

Insurance against Loss by Fire.

THE Franklin Fire Insurance Company, of Philadelphia, respectfully inform the public, that they continue to make permanent or limited Insurance against loss or damage by Fire, in *town* and *country*, on Houses, Barns, Manufactories, Stores, and other Buildings—and on Goods, Wares, Merchandise, and Agricultural Products, at very reduced premiums.

Application may be made at the Office, No. 163½ Chesnut street, nearly opposite to the United States' Bank, either personally or by letter, addressed to

CHARLES N. BANCKER, *Sec'y.*

August 19, 1833—d3m.

TO PRINTERS, &c.

ADAM RAMAGE respectfully informs his friends and the public, that the continues to make Printing, Copper Plate, Copying, Seal, Lithographic, and other Presses.

Among the variety of Printing Presses in use, it is found necessary, where printing is so universal, to have one of a simple, cheap, and durable description; at the present reduced price of Printing Materials, a small office can now be furnished at a little more than the cost of one expensive and complicated Press.

His present Patent Printing Press is compact, with two perfect Iron Surfaces, instead of wood and stone, as formerly—requires no staying, and can be repaired by any common mechanic.

It is particularly adapted for the country, or for South America, where it is now generally known as the only press that can be transported into the interior of the country with safety and facility.—These Presses are of all sizes, from Imperial to Job and Card Presses, and at corresponding prices.

From his connection with all the Type Foundries of the U. States, he is enabled to furnish a complete Printing Office on the same terms as at the respective foundries.

He embraces this opportunity of offering his grateful acknowledgments for the liberal encouragement he has for a long series of years experienced from the trade, by which he has been enabled to manufacture a greater number of Printing Presses than any other individual in the United States; and will only add, that he is not now solicitous to do a greater business than he can manage with convenience, and continue to give satisfaction to those who may favor him with their commands.

All articles in the Printing line as usual, and on as reasonable terms as at other establishments.

Lithographic Presses, of his make, may be seen at the principal offices of that art in different parts of the United States.

Paper Mill for Sale.

THE Extensive Establishment, known as the Soft Spring Paper Mill, now in the occupancy of C. Lukens & Co. is offered for sale.—Its situation is both desirable and healthy, possessing local advantages superior to any mill in the west, with a spring of pure, soft water, yielding a superabundance for all purposes—propelled by an engine sufficiently powerful, and to which has recently been added an entire New Machine for the manufacture of paper. Its location is about two miles from the city, on the Eastern Turnpike. The subscribers have no hesitation in believing it offers inducements to purchasers highly advantageous.

The terms will be rendered satisfactory, and but a small portion of the purchase money required at the time of sale, with an extended credit for the residue, being determined to make an early disposal. It will be sold low. Application made personally, or by communication, to either of the subscribers, will be attended to.

PROSPECT HILL

Literary & Scientific Institution.

PITTSBURGH, Pa.

ON the 1st of July, Mr. DANIEL STONE intends opening, near the City of Pittsburgh, an Institution for the instruction of boys. Its plan is to combine, as far as possible, the peculiar advantages of a domestic and public education.—The pupils, with the principal and assistants, will constitute one family, and be at all times under careful supervision. The *Discipline* will be mild, but strict, such as a father, solicitous for the welfare of his children, would exercise over them. It is believed that an appeal to reason, and the sense of honor and duty, will generally secure obedience. Coercive measures will, therefore, be adopted only in extreme cases.

The *Course of Study* will embrace the English, Latin, Greek, and French Languages; Arithmetic, Algebra, and Geometry; Geography and History—Ancient and Modern; Rhetoric, Composition, and Elocution; Natural Philosophy and Chemistry; Penmanship, Orthography, and Reading. Frequent examinations will be held, open to the friends and relations of the youths.

The *Mode of Instruction* will be thorough and critical, and no subject will be relinquished until fully understood. That the scholar's mind may become vigorous, active, and self-confident—prepared for the stern conflicts of life, and a fearless discharge of its duties, he will be encouraged to reason and decide for himself.

Each student will be required to attend such church as his parent or guardian shall designate.

To preserve health and elasticity of spirits, to check indolence, and promote industry among the students, they will be daily exercised in athletic sports.

Pupils will be admitted between the ages of *Six* and *Sixteen*. None can be received for less than one term.

The uniform *Dress* will consist of a cap, blue roundabout, with metal buttons, and blue pantaloons. Every article of clothing should be marked with the owner's name in full.

The *Terms* are two hundred dollars a year, payable quarterly in advance. This includes Tuition, Board, Lodging, Washing, Mending, Light, and Fuel.

The *Vacations*, after the present year, will be three—the 1st, of two weeks, from the 3d Wednesday in April; the 2d, of four weeks, from the 2d Wednesday in August; and one week at Christmas.

The *Matron's* department will be under the care of Mrs. Reynolds, of this city.

New Theatre, Pittsburgh.

THE Public is respectfully informed, that this ELEGANT NEW THEATRE, at present building, in Fifth Street, will be opened for the Season, under the management of the subscriber, with a Dramatic Company not surpassed by any in the Union, on Monday, the Second of September, 1833.

The building has been substantially erected, by those well known Mechanics, Messrs. *Roseburg, Reynolds, Scott, & McCulloch*, after a plan drawn by John Haviland, Esq., of Philadelphia, whose justly acquired fame as an Architect will be increased by the style and Beauty of the Present Edifice.

A first rate London Artist has been employed, for the last three months, in preparing the *Dresses* especially for this Theatre, which, in point of

ELEGANCE AND SPLENDOR,

Will equal, if not surpass those belonging to the Metropolitan Theatres of New York, or Philadelphia.

THE SCENERY

Has been designed and executed by Mr. J. R. Smith, a young Artist of great talent, and whose productions may challenge comparison with those of the most distinguished Scene Painters of the day.

THE MACHINERY

Has been entrusted to the care of Mr. Stafford, late of the Philadelphia Theatres, and the direction of the

MECHANICAL DEPARTMENT

Will be placed under the Superintendence of Mr. Hoffner, of the Chesnut Street Theatre, Philadelphia.

In addition to the exertions of the Regular Company, most of whom are advantageously known in the Eastern Theatres, the Manager has great pride and pleasure in informing the inhabitants of Pittsburgh and its vicinity, that he has engaged, at great expense, the celebrated American Tragedian

MR. E. FORREST,

Who will have the honor of appearing before them at an early period, of which due notice will be given. Negotiations have already been entered into with the most distinguished Performers of the American Stage, who will appear in rapid succession—among others,

MR. & MRS. HILSON,
MISS CLARA FISHER,
MRS. KNIGHT,
MR. J. R. SCOTT,

Also, Mr. PARSLOE, of the Theatre, Covent Garden, London, &c. &c. &c.

In making these arrangements, the subscriber has used every exertion in his power to render THE THEATRE a place of rational amusement—

"To raise the genius and to mend the heart;
Shew Virtue her own features;
Vice her own image;
The age and body of the time, his form and pressure."

And he throws himself confidently on the liberality of the citizens of Pittsburgh for support.

MILL AND CROSS-CUT SAWS.

THE Subscriber has the satisfaction to say to the public, and his friends, that he has connected with his other business, the manufactury of Mill and Cross Cut Saws; and can furnish supplies to merchants and others: he believes them to be equal to any ever used in the western country—the experience of the workmen employed, with the known good qualities of the steel, justifies him in warranting the article to any who may be disposed to patronize western industry.

DOCTOR ROBERT'S

☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

UTICA, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞ A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes givingt emporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a l cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY
FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river, where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

TRAVELLERS.

THE LINE OF STAGES between Chambersburgh and Baltimore, on the Somerset and Mountpleasant route, has been doubled, and now runs DAILY, (Mondays excepted,) leaving Chambersburgh *at day-light* in the morning, and arriving in Baltimore, early the same evening.

Passengers reach Philadelphia, in this way, the second afternoon, from Chambersburgh, without the loss of any rest; taking the splendid STEAM BOAT LINES, which set out at 6 o'clock in the morning, [via CHESAPEAKE AND DELAWARE CANAL, a work well worth the trip to see.]

REESIDE, Owner.

In all cases where the passengers desire to reach Baltimore in time for the 5 o'clock steam-boat to Philadelphia, they can do so by leaving Chambersburgh at one o'clock in the morning, or immediately after the arrival of the Western Mail Stage. In this way, they arrive in Philadelphia, by eight o'clock the *second morning*, from Chambersburgh.

☞ When a load offers, the stage will run on Mondays. April 23, 1830.—tf.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.
